REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir:

Applicants hereby request the Commissioner For Patents to correct the Official Filing Receipt for the above-identified patent application as follows:

- ☐ 1. Correct the Filing Date
- ☐ 2. Correct Inventor Name
- ☐ 3. Correct Title
- ☒ 4. Correct Information Referencing Related Case
- ☐ 5. Correct Attorney Docket Number
- ☐ 6. Other: _____

This Request is submitted for the following reasons:

Under "Domestic Priority data as claimed by applicant", please add the following:

"This application is a CON of 10/024,691 12/17/2001"

Attached is a copy of the Filing Receipt having the above error and the change noted thereon, as well as copies of the first and second pages of the Response to Office Action (filed with the USPTO on 2/7/06) updating the REFERENCE TO RELATED APPLICATION section of the Application and first page of the Application as filed. Therefore, it is respectfully requested that a corrected Filing Receipt be issued.

Because this was not an error on the part of Applicants, Applicants believe no fee is required. However, the Commissioner is hereby authorized to charge any fee that may be required for this correction to Deposit Account No. 502306.

If this action does not lead to issuance of a corrected Official Filing Receipt as requested, please contact the undersigned.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

REFERENCE TO RELATED APPLICATION

This application is a continuation of U.S. Patent Application Serial No.
10 _____ (Attorney Docket No. M-12420 US) entitled System and Method for
Processing Complex Orders, filed December 17, 2001, which is assigned to the same
assignee as the present disclosure.

BACKGROUND

Virtually every company provides goods and/or services to their customers.
15 The goods and services often include several components that can be ordered to the
customer's specifications. For example, a telephone company can provide wireless
and wired phone service, access to the Internet via one or more communication links
such as wireless access, a digital subscriber line (DSL), or a T1 line, and hardware for
accessing the services. During the initial ordering process, it is common for a
20 customer to select and change various components or service options over a period of
time until the goods are delivered and services are established or performed. As the
needs of a customer change over time, the customer can choose to add or remove
services, or upgrade some of the products or components in the products.

Many companies, such as communications and energy companies, bill for
25 their services by a mix of one-time fees (e.g. installation or disconnection), recurring
charges (e.g. a monthly access charge) and usage based charges (e.g. long distance
calling charges). The recurring and usage based rates are determined when the
request for service is captured as a quote or an order. After the initial installation
order is provisioned, those rates can be re-priced due to an update to the price list, or
30 the addition or removal of other products and services that impact the pricing of all
